

Monthly Reports

This page contains links to the trac input pages for monthly reports. The actual reports are in the project document archive (docushare) [?collection-221](#). In that archive are two kinds of reports:

- Extended Reports (include all content from the input pages identified by person/institution, so audit requirements can be met)
- Summary Reports (extracted from the Extended Reports for the DM Project Manager's report to senior management and the LSSTC board)

Each of these reports may be viewed by navigating to the the link in docushare and viewing as HTML.
