

Select transient variable objects near a known galaxy

```
SELECT v.objectId, v.ra, v.decl
FROM   Object v, Object o
WHERE  o.objectId = :objectId
       AND spDist(v.ra, v.decl, o.ra, o.decl, :dist)
       AND v.variability > 0.8
       AND o.extendedParameter > 0.8
```
